Configuring the PocketJet Printer for Perforated Paper

Follow these instructions to configure the PocketJet printer to use perforated paper.

- 1. From the Windows Start Menu select Control Panel and then select Devices and Printers.
- 2. Locate the icon for the PocketJet Printer and right click on it. You will see a pop-up menu as shown below. Select *Printing preferences*.

3. In the Printing Preferences dialog box shown below, click on the button labeled Advanced....

Layout Paper/Quality
