

Dolphin 70e

This touchscreen mobile computer looks and feels like a more rugged version of today's smartphone. It can run either Windows or Android operating systems.

CK3R

The CK3R has a more traditional mobile computer form factor, with options that include a gun handle and RFID capabilities.

Dolphin 60s

Similar in size to the Dolphin 70e, the 60s has a keyboard in addition to its smaller touchscreen for a more tactile feel.
