

How Long Would it Take to Crack AES-256 Encryption?

Well, if we used 12pt font

and typed 400
characters per page

it would take ...

165,500,000,000,000,000
,000,000,000,000,000,0
00,000,000,000,000,000,000
reams of paper

*assuming size

(knowing that each ream
had 500 pages)

just to PRINT the number of
years it would take to brute
force crack AES-256.

THE CHILDFIRST MOBILE SOLUTION USES AES-256 TO KEEP YOUR SENSITIVE DATA SECURE. [CLICK TO LEARN MORE ABOUT CHILDFIRST.](#)
