

OSCR360 developed by:

# OSCR360

## REVOLUTIONIZE CRIME & CRASH INVESTIGATIONS & PRESENTATION

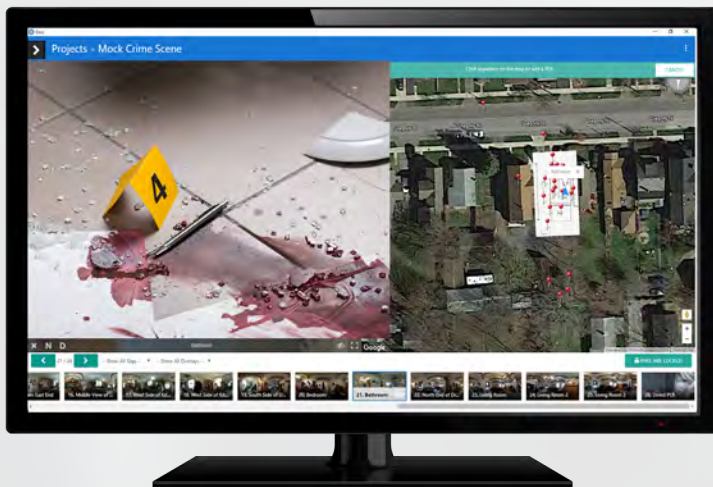

### What is OSCR360?

The OSCR360 solution captures, contains, relates, organizes and preserves digital evidence. Gain depth, perspective, and provide a greater understanding of your case through an on-screen walkthrough of the evidence. The solution is made up of a capture kit and desktop software.

### Built From Your Voice

Countless hours have been spent collaborating with Law Enforcement and Prosecutors. Every feature in the OSCR software came from your feedback and was developed with your budget challenges in mind.

OSCR360 Software

OSCR360 Capture Kit

OSCR360 developed by:

## REVOLUTIONIZE CRIME & CRASH INVESTIGATIONS & PRESENTATION

### OSCR360 CAPTURE KIT - No Training Required

#### Purpose Built & Priced to fit your Budget

OSCR360 is an economical solution developed with your budget challenges in mind. Built from from your voice, countless hours were spent collaborating with Law Enforcement and Prosecutors.

#### Quick and Easy Capture

Take 360 degree photos in just 3 easy steps with on-screen instructions. No post production or training required.

#### Eliminate Scene Contamination

Instantly review your 360 degree photos of the scene and show command staff on the OSCR tablet.

#### Reduce Your Time at the Scene

Capture an entire scene in under 20 minutes. Reduce the length of road closures and shorten the time officers and the community are exposed to danger.

#### Pack and Go!

Pack up your OSCR360 capture kit, throw it in the back seat, you're ready to go.

### OSCR360 CARRYING CASE

*\*Everything fits in the carrying case, weighing under 5lbs.*

### OSCR360 CAMERA, SENSOR TUBE & TRIPOD

OSCR360 TABLET

### WHERE HAS THE OSCR360 BEEN USED?

- Pictures taken with an earlier version of our system were admitted in as evidence in a local Rochester case resulting in a 2nd Degree Murder Conviction in October 2016.
- OSCR360 has also been used on 23+ cases/pleas

### WHO IS USING OSCR360?

- Yates County Sheriffs Office
- Monroe County Sheriffs Office
- Brighton Police Department
- New York State Department of Environmental Conservation
- Greece Police Department
- Monroe County District Attorney
- Seneca County

### USER FEEDBACK

*"OSCR360 is a gift to crash reconstruction. It typically takes an average of 45 minutes to take still photos of a crash scene. With OSCR360, I was able to capture everything I needed in 30 seconds. This equipment easily allows us to document a collision in a clear and concise manner & shows a true and accurate depiction of the crash and the environment."*

- Charles Grasso III, Retired Sergeant, Expert Crash Reconstructionist

## OSCR DESKTOP SOFTWARE

**CAPTURE + CONTAIN + ORGANIZE & RELATE = FIND TRUTH**

### CAPTURE & VIEW

Quickly take 360 degree photos and auto-collect GPS data. Instantly view images on the OSCR tablet.

### CONTAIN

Add in multi-media evidence files. OSCR360 software is the container.

### ORGANIZE & RELATE

The OSCR360 photos are used to organize and relate the evidence.

### FIND TRUTH

Connect the dots, present a multi-media tour of the case, take the judge and jury back to the scene.

## BUILT FROM YOUR VOICE:

Made so easy, even a kid can use it. Every current feature and future features are from your voice.

Ease of use and relative low cost are why Yates County chose OSCR360 over other imaging technology. Initially, Yates County Sheriff's Department thought it would use OSCR360 for just crash reconstruction, but according to Deputy Pete Butler, the agency uses it for burglaries, grand larcenies, death investigations, motor vehicle crashes, search warrants and more.

Investigator Tim Karch from Brighton Police Department revisits cold cases with OSCR360. "We can go back and re-shoot an entire scene as it exists today, so if we are able to bring charges forward in the future, we can walk someone virtually through a scene."

Where this solution is deployed:

- Brighton Police Department
- Chautauqua County DA's Office
- Cortland County Sheriff's Office
- Greece Police Department
- New York State DEC
- Monroe County DA's Office
- Monroe County Sheriff's Office
- Seneca County Sheriff's Office
- Yates County Sheriff Department

The presentation software has been accepted in grand juries, admitted as case evidence, and used in closing arguments.

Interested in speaking to a user? Hank Kula is a retired Sergeant with 26 years in Law Enforcement, a New York State certified crime scene technician, crash reconstructionist and training instructor. To set up a time, call Juli:

## YOUR VOICE YOUR FEEDBACK

*"This is a no-brainer. I can [virtually] walk through a crime scene with someone. I can take that into the courtroom and walk a jury through the scene. This is just so quick. The innovative side of it is a breath of fresh air. This takes care of some of your photography, overalls of the scene, and videography. Initially we were going to use it just on major cases, but when we saw the ease and the flow of the work and how it could be utilized, it opened the door so there was no reason not to use it for most anything..."*

- Deputy Pete Butler  
Yates County Sheriff's Office

*"I thought [OSCR360] helped consolidate all the information we had to consider and make things clearer..."*

- Juror #9  
Rideout Murder Trial  
Rochester, NY

**MORE THAN A CAMERA...**

**CAPTURE + CONTAIN + ORGANIZE + RELATE = TRUTH**

## About Us

L-Tron Corporation specializes in purpose-built equipment for Law Enforcement. Built from your voice, our solutions and equipment are currently used in over 2,000 municipalities across 49 states.

We first got our start with the 4710, 4810 and now 4910LR DL Readers for eCitation and incident reporting over 17 years ago. You will likely find them flying around in your patrol vehicle, covered in hot chocolate. *Magnetic mount coming soon!*

4910LR DL Reader

Our dedicated technology support team includes retired Law Enforcement to better serve your needs.

We partner with leading equipment manufacturers: Brother, Dell, Getac, Havis, Honeywell, LEM, Patrol Data, Zebra Technologies and more. Our premier partnership level translates to higher levels of support delivered to you quickly.

View all of our solutions at [www.L-Tron.com/Law](http://www.L-Tron.com/Law).

## A Team Proud to Back the Blue

Our initiatives include: research and knowledge sharing on distracted patrol, partnering with the Badge of Honor Association, sponsoring free forensic photography training courses, cookies for a cop, book and bear donations to RPD and more.

*Cuddle Bear Drive Raises \$3400 for the Rochester Police Department and the Rochester Mayor's Books and Bears Program.*

*Happy Hour Events to Support the Rochester Police Department's Books and Bears Program.*

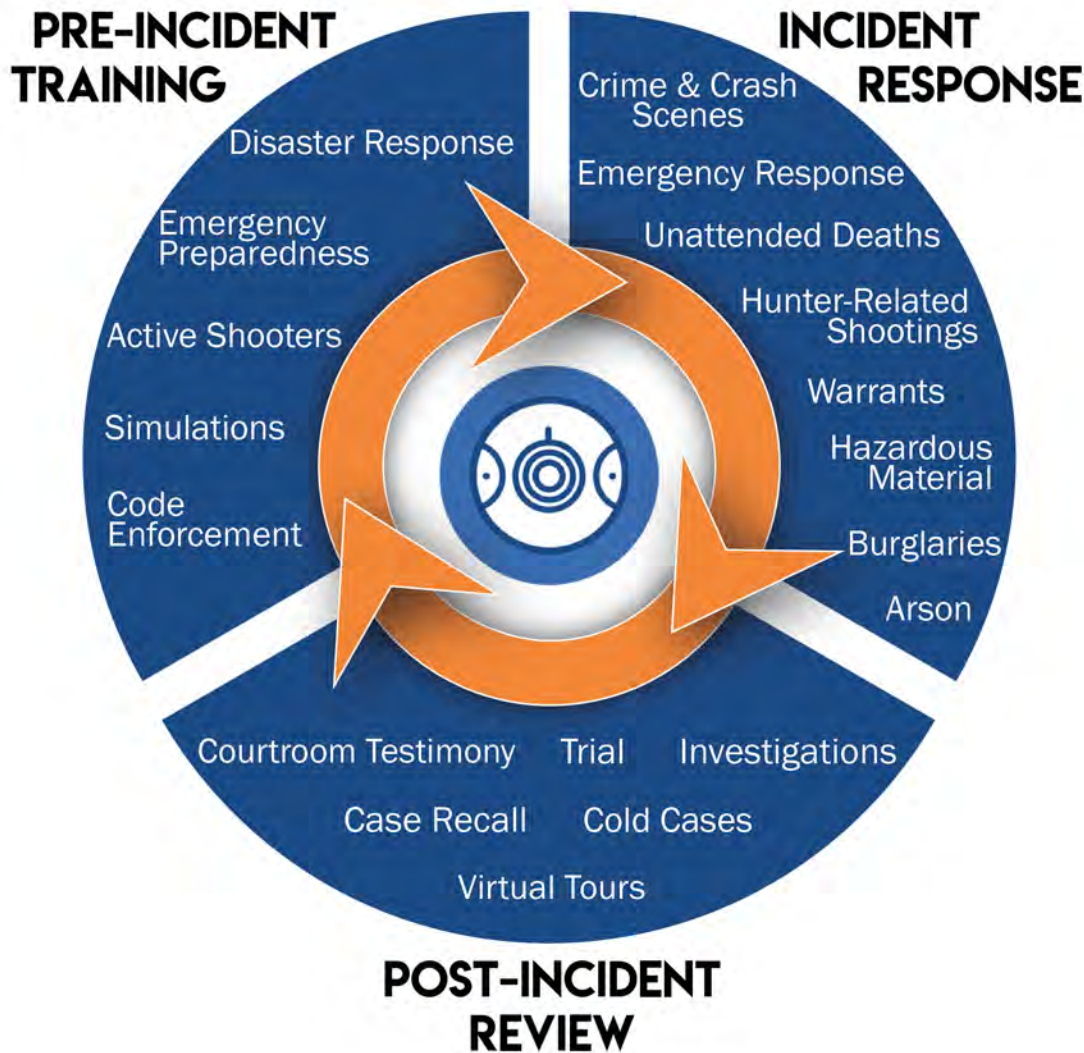

*2nd Annual 'Cookies for a Cop' Donation to several local Police Departments.*

*Thanks for your service!  
-The L-Tron Team*

## OSCR360 TEAMS WITH YATES COUNTY SHERIFF'S OFFICE

### CRIME SCENE BACKGROUND

A couple people broke into a hardware store on Dundee-Himrod Lane and stole ammunition from the store. They ran out to their car and tried to drive it through the outskirts of a cornfield. They ended up in a ditch and ran. They hid in a clover patch to hide from the responding police.

### CHALLENGES

Yates County needed an easy way to show the path of travel the burglars took, along with their dropped stolen materials. A large geographical area is difficult to convey with traditional photography.

### WHY OSCR360?

Yates County used the OSCR360 & the 27 foot mega mast to take 360 degree photos of the burglary scene. They then used the OSCR software to place the 360 degree photo pins on a map to display the travel path of the suspects. Multi-media evidence files were also added in to the OSCR360 software to further demonstrate the details of the crime. The presentation was delivered to the DA who was able to quickly and easily connect the dots in this case. OSCR360 was also used in preparation for grand jury and during case prosecution.
