L-TRON

FOUNDED OCT. 1976

4910LR DL Reader

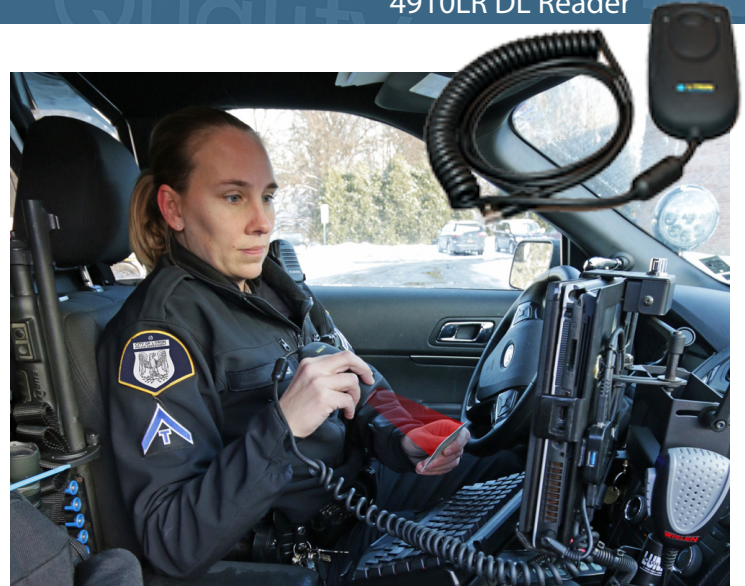

WHO ARE WE?

We provide solutions from industrial and medical fields to one of our greatest treasures, public safety. L-Tron is filled with people who go beyond sales and service; who supports global initiatives like providing clean drinking water in one of the world's poorest continents.

We specialize in purpose-built equipment for Law Enforcement. Built from your voice, our solutions and equipment are currently used in over 2,000 municipalities across 49 states.

We have been working for Law Enforcement for over 20 years. We first got our start building eCitation DL Readers from your voice & feedback. The first generation 4710LR DL scanner was created, and has evolved from your feedback to the 4810LR, and now the 4910LR. You will likely find the 4910LR DL Reader in your patrol vehicle (pos-sibly covered in hot chocolate...).

OUR PORTFOLIO FROM YOUR VOICE

To better serve you, we are continually expanding our Law Enforcement solutions and equipment portfolio.

2017: OSCR360 was developed.

OSCR is a 360 photography & software solution to help capture your crime scene evidence and much more. Use OSCR for crime scene investigations, active shooter preplanning, crash investigations, and more.

2018: The magnetic mount accessory was built and launched to securely hold your 4910LR DL Reader in place in your vehicle.

OUR PARTNERS ARE YOUR PARTNERS

We selectively partner with the best hardware manufacturers available to provide electronic ticketing outfitting for the inside of the patrol vehicle. Our premier level partnership level translates to better pricing and higher levels of support delivered to you quickly.

YOU'VE GOT OUR BACK & WE HAVE YOURS

"I must say, dealing with your company has been a great experience. The promptness of the responses and communication has been outstanding and I will be recommending your company to everyone in the law field."

- Scott, Chief of Police
