

# HOW CAN OSCR360 ASSIST FIRST RESPONDERS DURING COVID-19?

*Keep your First Responders safe during the COVID-19 crisis.  
Limit the number of personnel entering a scene.*

*OSCR360 partners with you on all scenes, including biohazards, fire scenes, arson investigations, emergency management planning, unattended deaths, training, burglaries, homicides, and more.*

01

## GET IN AND GET OUT capture overall scene photos quickly

Reduce exposure to COVID-19 and other biohazards. Capture a scene in 5 seconds or an entire house in 15 minutes with the OSCR360 Capture Kit.

## LIMIT FIRST RESPONDERS ON SCENE

One person operates the OSCR360 system. Once 360s are captured, take the OSCR tablet to command staff. Safely & instantly view your 360 photos. Limit exposure to biological hazards, including COVID-19.

02

03

## LIMIT USE OF PPE

With limited personnel on scene, agencies save valuable gloves, masks, and gowns for others.

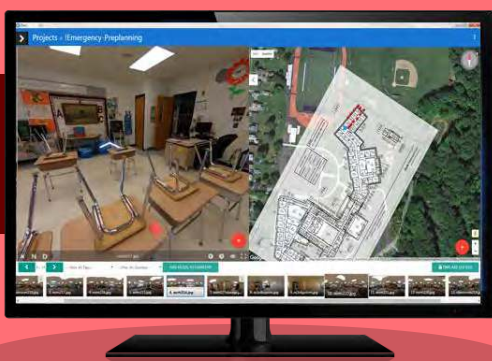

## DECON IS EASY with the add-on OSCR360 Rain Kit

The OSCR Rain Kit protects your 360 camera. Easily wipe down the protective housing. The OSCR360 Rain Kit is used by first responders during biological and chemical threats including MRSA scenes, wet and dripping fire scenes, meth lab search warrant execution, hazardous waste/dumping investigations, and more.

04

05

## PRE PLANNING

While many public places are closed or empty, utilize OSCR360 to document schools, colleges/universities, government and public buildings and spaces. Your 360 photos become a container to build a true and accurate virtual walkthrough. Use the OSCR projects you built for proactive training initiatives.
