

OSCR360

**USED & ACCEPTED
IN COURT**

Present your evidence, provide a walk-through of the case & gain convictions with one single, easy-to-use platform.

- ✓ *Gain convictions and close cases efficiently. Serve justice.*
- ✓ *OSCR is used and accepted in court.*
- ✓ *Bring the scene to the courtroom with a visual walk-through of your case.*
- ✓ *Seamless integration between law enforcement, attorneys, judges & juries.*

WHAT IS OSCR360?

Built directly from the feedback of Prosecutors and Law Enforcement, OSCR360 combines easy-to-use courtroom presentation software with a powerful crime scene investigation tool. OSCR360 is the single platform to present and organize digital evidence.

Inspired by a juror's experience, the OSCR360 software enables you to display your demonstrative evidence (still images, documents, videos, reports, PDFs, etc.) in a single, simple-to-navigate presentation. On-scene spherical images, documented using the OSCR360 Capture Kit, act as containers for all your digital evidence. Provide context, perspective and a greater visual understanding of your case.

OSCR'S PATH TO CONVICTIONS

BUILD YOUR CASE

The OSCR software provides a single platform to gather and present your demonstrative evidence.

Use OSCR360 images as the briefcase for containing your evidence. Easily display all evidence.

Personalized training is provided. Support is always available 24/7/365.

PRESENT YOUR CASE

Gain convictions with seamless courtroom presentations.

Present your evidence on one single, easy-to-navigate platform.

Provide a compelling 360-degree visual walk-through of the case. Put viewers right in the middle of the scene, providing context and clarity.

CLOSE YOUR CASE

Close your case with convictions or pleas. Present the facts and connect the evidence. Justice is served.

Show context & perspective that are not found with traditional photography.

The burden of proof lies with you. Pave the path to justice with a transparent and objective view of the scene.
