

# OSCR360

## Feedback from the Courtroom:

### New York DA's Office

"It was used during the testimony of a main witness in our case [in the courtroom.] We were able to have the witness walk through the crime scene with the use of the 360. The jury was able to see the witness's vantage point of the events that occurred. The witness was able to articulate where all of the parties involved in the crime were located through the use of the 360. We were pleased with the results since it helped us explain the crime scene to the jury."

### Texas DA's Office

"Just wanted to take a second to say thanks to you and your team. Everyone here in the DA's office liked the demo and felt this would be something we could use in court and for the Grand Jury."

### New York Sheriff's Office

"We had a solid case. The evidence made up the ingredients that baked the cake. OSCR is what frosted it. It made the prosecution look so prepared. They had everything together."

### Pennsylvania DA's Office

"I think our ADA's would use this just as much as we would. The software seems really easy to use and walks them through everything."

### New York Trial Juror

"I thought [OSCR360] helped consolidate all the information we had to consider and make things clearer..."

### Nevada Sheriff's Office

"It would be easy to share with our DA's office and a jury to certainly immerse them into a scene, just by taking a couple photos as we're there (at a crime scene)... I just think that the 360-degree spherical capabilities with it [OSCR360] provides a much easier way to navigate through a scene than a bunch of photographs."

# OSCR360

Built from the voice of Prosecutors & Law Enforcement, L-Tron's OSCR360 was developed to document scenes and present them in the courtroom. The OSCR360 Software provides a comprehensive crime scene walkthrough, while the OSCR360 Equipment captures entire scenes in minutes.

Currently, OSCR is being used by: District Attorneys, Law Enforcement, Fire Departments, Environmental Safety and Protection, School Administrators and by Federal, State, Local & Private agencies.

A proud New York State business, L-Tron's Law Enforcement offerings have been deployed in over 3,000 municipalities across 50 states nationwide.

We have been working with, and for, Law Enforcement for more than 20 years, specializing in purpose-built equipment developed from your voice.
